

HD12 SERIES - CARGO CLIMBING NETS

JAMMAR MFG

PRODUCT SPECIFICATION

The HD12 Series Indoor Cargo Climbing Net are the highest quality heavy-duty net available in the industry. All HD12 nets are handcrafted entirely of quality 3-strand 3/4" non-stretch yellow polypropylene rope. All HD12 nets are constructed using a 3-pass weave design and spliced border. The HD12 net squares measure at approximately 12" square relaxed, and are extremely flexible and rugged. All 3/4" diameter rope construction makes gripping very easy. All HD12 nets are supplied with 4" inner diameter eye-loops for easy installation. Net should be attached to smooth ceiling hardware or framework, such as a round support pipe. Jammarmfg offers various HD12 net attachment kits to tailor to any facility. Contact Jammarmfg for additional information.

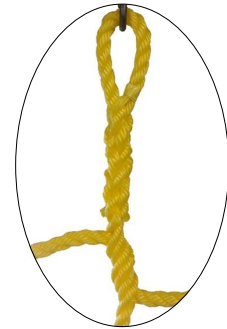

All HD12 Series nets have a 12" square design and are intended to provide and improve climbing ability, combining many strength, movement, and coordination skills. The unique 12" square design allows an additional activity of climbing through the net during certain activities. The HD12 net is offered in various heights and widths, as well as custom sizes. All HD12 nets are lightweight and can be easily raised to the wall or ceiling for easy storage and elimination of unauthorized use with optional net hoists. All HD12 nets are supplied with detailed installation instructions, care, and use documentation. Mats, spotters, and supervision are always required with any climbing equipment. HD12 nets are for indoor use applications only.
