

HD9 SERIES - CARGO CLIMBING NETS

JAMMAR MFG

PRODUCT SPECIFICATION

The HD9 Series Indoor Cargo Climbing Net are the highest quality heavy-duty net available in the industry. All HD9 nets are handcrafted entirely of quality 3-strand 3/4" non-stretch yellow polypropylene rope. All HD9 nets are constructed using a 3-pass weave design and spliced border. The HD9 net squares measure at approximately 9" square relaxed, and are extremely flexible and rugged. All 3/4" diameter rope construction makes gripping very easy. All HD9 nets are supplied with 4" inner diameter eye-loops for easy installation. Net should be attached to smooth ceiling hardware or framework, such as a round support pipe. Jammarmfg offers various HD9 net attachment kits to tailor to any facility. Contact Jammarmfg for additional information.

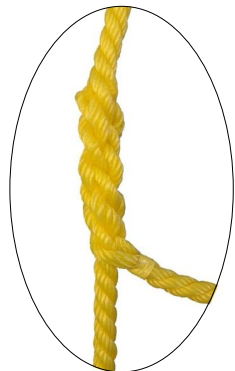

All HD9 Series nets have a 9" square design and are intended to provide and improve climbing ability, combining many strength, movement, and coordination skills. The unique 12" square design is more suitable for smaller legs or use on an incline. The HD9 net is offered in various heights and widths, as well as custom sizes. All HD9 nets are lightweight and can be easily raised to the wall or ceiling for easy storage and elimination of unauthorized use with optional net hoists. All HD9 nets are supplied with detailed installation instructions, care, and use documentation. Mats, spotters, and supervision are always required with and climbing equipment. HD9 nets are for indoor use applications only.
